

Sthirabhava Website Design & Development Brief

Project Vision

The Sthirabhava website should not feel like a traditional startup or SaaS website. It should feel like stepping into a calm, thoughtful, and emotionally intelligent space.

Every design decision should reinforce one message:

Emotional intelligence is a fundamental life skill.

The website is not built to sell an app. It is built to establish trust, communicate our vision, and introduce the ecosystem we are building.

The visitor should leave with three impressions:

- This company genuinely understands people.
- This is a long-term mission, not just another startup.
- I want to be part of this journey.

Design Principles

Overall Experience

The website should feel:

- Minimal
- Elegant
- Premium
- Calm
- Human
- Timeless

Avoid visual clutter.

Use generous whitespace.

Every section should have room to breathe.

The experience should feel emotionally warm rather than visually loud.

Visual Direction

Reference websites for inspiration:

- Apple
- Headspace
- Notion
- Airbnb
- Linear

We are aiming for premium simplicity.

Color Palette

Primary Colors

- Warm Off White
- Soft Beige
- Muted Sage Green
- Earthy Neutrals

Accent

- Deep Forest Green
- Charcoal

Avoid bright colors.

Avoid gradients that feel flashy.

Typography

Use modern, elegant typography.

Headings should feel confident.

Body text should feel highly readable.

Recommended

Headings:

- Manrope

- General Sans
- Satoshi

Body:

- Inter
 - DM Sans
-

Animations

Animations should feel subtle.

Examples:

- Fade In
- Gentle Slide Up
- Soft Hover
- Smooth Scroll
- Micro interactions

Avoid dramatic animations.

Emotion comes from simplicity.

Image Style

Avoid stock photos.

Prefer:

- Authentic human moments
- Real emotions
- Calm illustrations
- Natural lighting
- Minimal backgrounds

The imagery should feel emotionally intelligent rather than clinically therapeutic.

Design Notes

- Large typography
- Minimal copy
- One emotional illustration or subtle animation
- Plenty of whitespace

2. Emotional Hook

Purpose

Help visitors immediately recognize the problem.

Content

Have you ever...

- struggled to understand your own emotions?

- wished emotional skills were taught like mathematics?
- felt emotionally overwhelmed but didn't know where to begin?

You're not alone.

We're building a future where emotional intelligence is accessible to everyone.

3. About Sthirabhava

Heading

Who We Are

Content

Sthirabhava is building the emotional intelligence ecosystem of the future.

We believe emotional intelligence should not be limited to therapy rooms or leadership workshops—it should become a daily life skill available to everyone.

Through technology, education, research, and meaningful experiences, we are creating tools that help people understand themselves and connect better with others.

4. Vision & Mission

Vision

A world where every person grows with emotional intelligence.

Mission

To make emotional intelligence practical, affordable, and accessible for millions.

Core Values

Display as icon cards.

- Empathy
- Science
- Human Connection
- Simplicity

- Trust
- Accessibility

No long paragraphs.

5. Our Ecosystem

11. What Guides Us

Large typography.

Minimal quotes.

Examples

"We believe emotions deserve understanding, not judgment."

"Growth begins with awareness."

"Technology should make people more human."

12. Founder's Note

A Note from Our Founder

We believe emotional intelligence is one of the most important skills a person can develop—yet one of the least taught.

The ability to understand ourselves, navigate emotions, build meaningful relationships, and respond thoughtfully to life's challenges shapes every aspect of how we live. These are not optional skills. They are foundational human skills.

Sthirabhava was founded with a simple conviction: **emotional intelligence should be accessible to everyone, not reserved for moments of crisis or a privileged few.**

We're building an ecosystem where science, technology, and human understanding come together to make emotional intelligence practical, accessible, and part of everyday life.

This is a long-term mission. We are not here to build another app—we are here to help build a generation that understands itself better, connects more deeply with others, and leads with greater awareness.

If our work helps even one person respond with more empathy, make one wiser decision, or better understand their own emotions, we are moving in the right direction.

Thank you for being part of this journey.

UX Principles

Every section must answer one subconscious question.

Hero

Why should I care?

Hook

Do they understand me?

About

Who are they?

Vision

Where are they going?

Ecosystem

What are they building?

Why EI

Why does this matter?

Approach

How do they think?

Emolit

What have they built?

Founder

Why do they exist?

CTA

How can I be part of this?

Writing Style Guidelines

All website copy should be:

- Clear
- Human
- Calm
- Confident
- Thoughtful
- Purpose-driven

Avoid:

- Marketing buzzwords
- Corporate jargon
- Overpromising
- Fear-based messaging
- Excessive technical language

Every sentence should feel intentional.

Technical Expectations

- Fully responsive (Desktop, Tablet, Mobile)
- Fast loading (Core Web Vitals optimized)
- SEO-friendly semantic HTML
- Smooth scrolling

- Accessible (WCAG considerations)
 - Optimized image loading and lazy loading
 - Clean animations with high performance
 - Reusable component-based architecture
 - Easy content management for future updates
-

Final Brand Objective

The website should not leave visitors thinking:

"This is an app."

It should leave them thinking:

"Sthirabhava is building the future of emotional intelligence, and Emolit is only the beginning."
